

At Parts on Demand we receive a lot of calls from Service Centre's, regarding the Service Codes for late model HP Laser Printers.

On most of the later model HP Laser Printers, the service code is required in order to access any printer settings that are reserved for service personnel. These settings are used to: obtain the total page count, change the Maintenance count, Maintenance interval, Serial Number (if the formatter is replaced) a cold reset, and other options.

Below are the codes for each model summarised on one sheet so that they can be more easily located.

<u>HP model #</u>	<u>Service PIN #</u>	<u>HP model #</u>	<u>Service PIN #</u>
• HP2300:	11230002	• HP4610:	05465004
• HP2410:	10241004	• HP4650:	05465004
• HP2420:	10242004	• HP4700:	09470005
• HP2430:	10243004	• HP5200:	05520006
• HP3000:	11300005	• HP5500:	04550002
